To Whom It May Concern:

Re: BD Insyte™ Autoguard™ and Autoguard Pro™ IV Catheters

The devices identified above are considered biocompatible by design and, therefore, do *not* require a Material Safety Data Sheet (MSDS). Our current understanding of applicable regulations is that Federal law exempts products subject to the labeling requirements of the Food and Drug Administration from complying with the Hazard Communication Standard. In addition, it is our understanding that most state right-to-know laws similarly exempt such products from their scope.

I trust that this information will be helpful to you.

If you should have further inquiries about BD Medical System's products, please call me at 801/565-2442; fax 801/565-2449.

Sincerely,

Diana H. Cass
